Brief History since the Last Comprehensive Evaluation:

October 2012

Based on review of the comprehensive report of the evaluation team and the college's written response to the team report, the Council granted accreditation of New York College of Podiatric Medicine through October 2020. On-site re-evaluation may be expected during the spring of 2020. The maximum first year class enrollment for the institution is 109. No areas of noncompliance were identified during the on-site evaluation.

May 2020

The NYCPM site visit has been postponed from June 8-11, 2020 to late fall 2020 due to the COVID-19 pandemic. As the accreditation term for NYCPM was set to expire in October 2020, the Accreditation

Committee recommended and the Council voted to approve, extending the accreditation term to October 2021 due to the inability to conduct the site visit before the accreditation expiration date as a result of the pandemic.

October 2020

The Accreditation Committee and the Council determined that the college is in noncompliance with Standard 1 Requirement b in CPME 120, *Standards and Requirements for Accrediting Colleges of Podiatric Medicine*. Specifically, the College is in noncompliance with requirement 1.b. related to strategic plan. The college is required to submit a progress report for consideration at the April 2021 meetings of the Accreditation Committee and the Council that includes the college's progress in correcting the area of noncompliance.

The college must take appropriate action to bring itself into compliance with the requirements. Since the Council first identified the NYCPM as being in noncompliance with standard and requirement 1.b. in October 2020, the college has until October 2022 to come into compliance with the requirement unless an extension for good cause is requested and granted. It is very important to note that the college is at risk for probation and subsequent withdrawal of accreditation if the area of noncompliance is not corrected.

Concerning the substantive change request, the Accreditation Committee reviewed and accepted the substantive change request to affiliate with another institution and determined that prior to approval of the substantive change, an on-site evaluation will be conducted to assess this substantive modification. This aspect of the on-site evaluation will be conducted at the same time as the reaccreditation site visit scheduled for December 7-10, 2020.
