Brief History since the Last Comprehensive Evaluation:

April 2019

The Council granted accreditation of the Arizona School of Podiatric Medicine at Midwestern University through April 2027. On-site re-evaluation may be expected during the fall of 2026/early winter 2027 and the maximum first-year class enrollment is 40.

Following review of the on-site team report, the Accreditation Committee and the Council determined that the school is in noncompliance with three standards and requirements from CPME 120, *Standards and Requirements for Accrediting Colleges of Podiatric Medicine*: requirement 1b related to the Strategic Plan, requirement 2b related to Parent Institution, and requirement 3b related to the Chief Academic

Officer. The school is required to submit a progress report for consideration at the October 2019 meetings of the Accreditation Committee and the Council that includes the school's progress of correcting the areas of noncompliance.
